# Covid-19 PAT CAT: Patients over 70 years of age

| | |
|---|---|
| **Recipe Name:** | Patients over 70 yrs of age |
| **Rationale:** | Patients older than 70 are at high risk of Covid-19. This recipe will show you how to asses the numbers of those patients in your catchment. |
| **Target:** | Patients over 70yrs of age |
| **CAT Starting Point:** | 1. PAT CAT Open<br>2. Population Extract Loaded and Extract Pane "Hidden" |

**Filter Steps:**

- On the "General" Tab, enter the Start Age = 70

- Click "Recalculate"

**Report Steps**

- Click on 'Population' to see the count of patients selected

The report will show the total population of patients over 70 in all practices in your catchment:
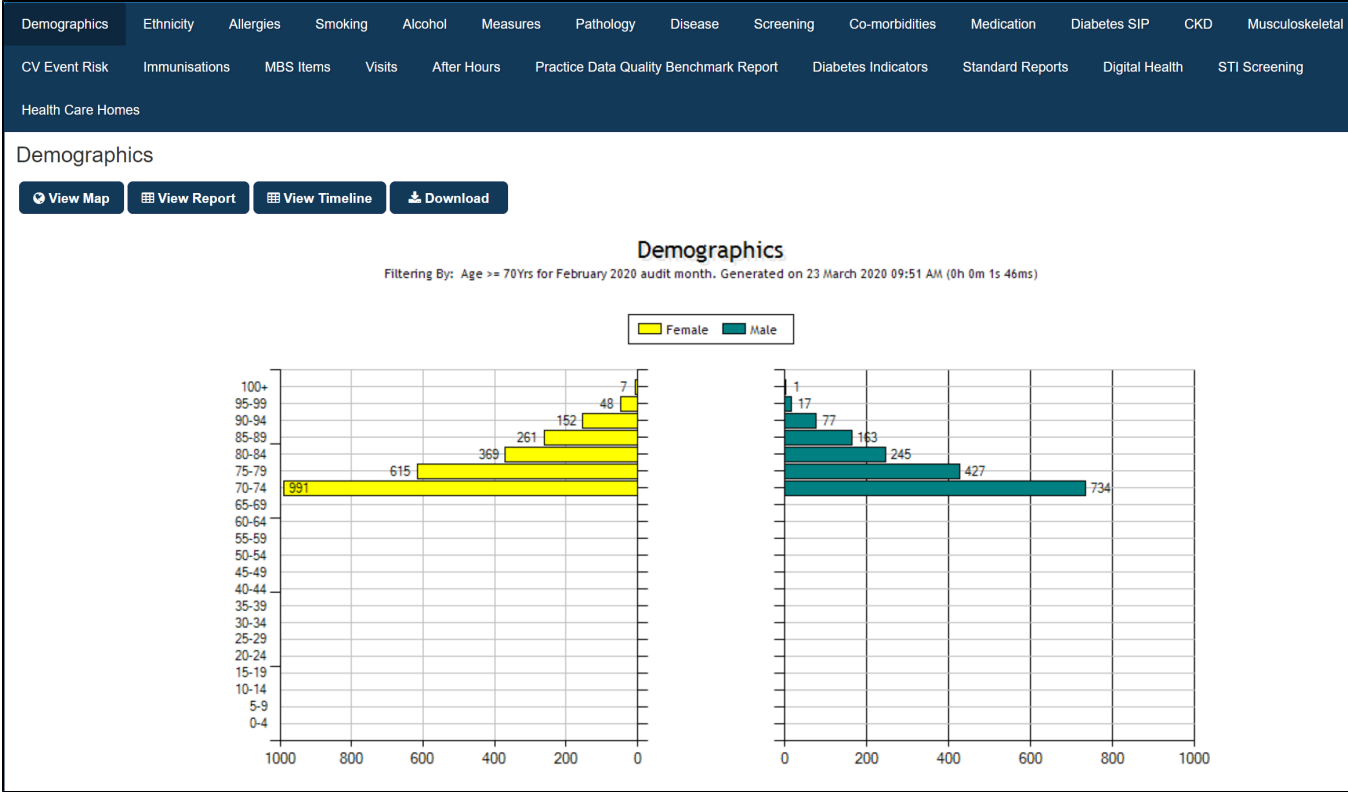

## View Population

**Total Population: 4,110**

Filtering By: Age >= 70Yrs for February 2020 audit month. Generated on 23 March 2020 09:51 AM

| Practice | Total Population | Extract Population | Extract Date | Date Loaded |
|---|---|---|---|---|
| Dinesh Reddy Test Practice | 1,245 | 38,670 | 9 February 2020 07:37 AM | 20 February 2020 01:11 PM |
| James Test Clinic | 427 | 12,061 | 20 February 2020 12:09 PM | 20 February 2020 12:56 PM |
| JTCSP | 12 | 32 | 14 February 2020 09:50 AM | 14 February 2020 09:51 AM |
| Manfred Training Practice | 1,178 | 7,603 | 1 February 2020 04:11 AM | 13 February 2020 05:55 PM |
| Matthias Test Clinic | 624 | 10,288 | 10 February 2020 10:14 PM | 20 February 2020 01:04 PM |
| Pruthvi Test Practice | 624 | 10,288 | 27 February 2020 10:14 PM | 27 February 2020 06:50 PM |

● Close

This will enable you to identify practices with a higher than average number of elderly patients and give you an idea of the overall numbers in your catchment.
For a more details view of patient demographics, you can use the Demographics report.
