

# MBS App

 Unknown macro: 'export-link'

To access the MBS App click on the 'mbs' title in Topbar. This will display guidelines for eligible patients. Apps in Topbar are by default only displayed when there is any activity indicated for the patient open in the clinical system.

The MBS app can assist a provider in determining which MBS item is relevant for the patient currently open in the clinical system. Topbar looks at the billing history of the patient at the clinic only - Medicare does currently not allow third party access to information about billing elsewhere. We extract the information from your local billing and clinical system.

Topbar also looks at the coded reason for visit to establish if an activity required to claim an item has been 'done' and is ready for claiming. This applies to most of the items we use (GPMP, TCA, health checks,...). Free text or entry as part of a progress note will not be picked up, it needs to be a coded reason for the presentation/visit.

 Once an item has been successfully claimed (not just submitted) it will be marked with the green tick as 'up to date' in the Topbar MBS App.

For details on the Eligibility and Settings tab see here:

- [Heart Health Check Item](#)
- [MBS App Eligibility Tab](#)
- [MBS App Settings Tab](#)

We are prompting for the following items:

| MBS Item Number | Name/Comments | Eligibility Criteria | How to record it in the clinical system |
|-----------------|---------------|----------------------|---|
|-----------------|---------------|----------------------|---|

|                        |   |  |   |
|------------------------|---|--|---|
| 721                    | GP Management Plan                                    | Diabetes<br>Asthma<br>CHD active and inactive<br>COPD<br>Hypertension chronic<br>Heart failure<br>Peripheral vascular disease<br>Stroke<br>Mental health<br>Osteoporosis<br>Osteoarthritis<br>Rheumatoid arthritis<br>Coeliac<br>Chronic renal failure<br>Palliative care<br>Cancers<br><br>No claim recorded within the last 12 months<br>Not in residential care | coded reason for visit  |
| 723                    | Team Care Arrangement                                 | as above   | coded reason for visit  |
| 732                    | GPMP/TCA Review                                       | claimed GPMP/TCA recorded and at least 3 months ago - can't be claimed within 3 months of a Diabetes cycle of care   | coded reason for visit  |
| 701, 703, 705, 707     | Health Assessments                                    | patient in correct age group and no claim recorded in the respective time frame for the item   | coded reason for visit, different MBS item depending on age   |
| 900, 903               | Domestic or Residential Care<br><br>Medication Review | No claim recorded within the last 12 months  | Medication review field in clinical system<br>OR coded reason for visit                                     |
