

MBS Items

The MBS Items tab is available when a compatible billing system is used and correctly configured in CAT4. The details on how to configure your preferences to collect billing data as well as clinical data can be found here: [Choosing and configuring your Billing System](#)

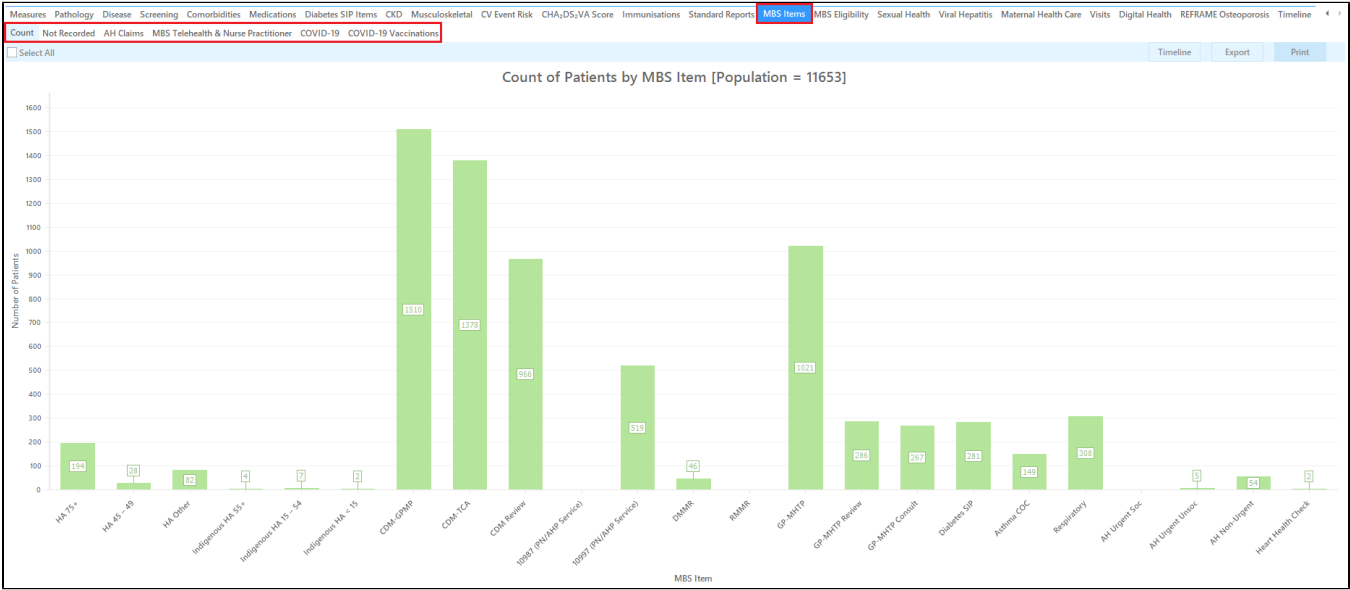

The data is displayed as a bar graph of:

- Count of patients with MBS items recorded
- Count of patients with no MBS items not recorded
- Count of patients with After Hour MBS Claims
- Count of patients with MBS Telehealth and Nurse Practitioner
- Count of patients with Covid-19 temporary MBS items introduced during the Covid-19 pandemic

The MBS items are extracted from your billing system.

Where relevant, items specific for 'other providers' have been added. Other providers are non vocationally registered clinicians who can perform the same services (health assessments, care plans and others) but have to use different item numbers from vocationally registered clinicians. These items are listed under the relevant activity and are treated the same, as the patient has received the same service.

 Please note that we are reporting rejected items on the 'count' tab of the report, as it is assumed that the work (health assessments, care-planing and other) has been performed. This is likely to change with an upcoming review of the MBS item reports.

Notes

1. You can use the Results filter to find the most recent MBS items that have been billed in a specific time period.
2. **Old item numbers are still collected and displayed in the appropriate bar segment of the graph. Refer to the table below. The item number will be viewable via the Reidentify report.**
3. **Old items - Diabetes SIP and Asthma COC are displayed in the report to represent past data.**
4. MP = Medical Practitioner, NP = Nurse Practitioner, PN = Practice Nurse, AHW = Aboriginal Health Worker
5. Other Provider - non vocationally registered clinicians

MBS Items currently collected are:

	Old item numbers still collected

Asthma COC	2546, 2547, 2552, 2553, 2558, 2559, 2664, 2666, 2668, 2673, 2675, 2677, 265, 266, 268, 269, 270, 271
Respiratory - includes items 11506, 11503, 11505, 11507, 11508, 11512	
AH Urgent Soc – includes items	597, 598
AH Urgent Unsoc – includes items 599, 600	
AH Non-Urgent – includes items 5000, 5020, 5040, 5060, 5200, 5203, 5207, 5208 5003, 5010, 5023, 5028, 5043, 5049, 5063, 5067, 5220, 5223, 5227, 5228, 5260, 5263, 5265, 5267	

MP Telehealth at consulting room - includes items 2100, (attendance), 2126 (attendance < 20mins), 2143 (attendance > 20 mins), 2195 (attendance > 40 mins), 812, 829, 867, 873, 885, 892	
MP Telehealth not at consulting room - includes items 2122 (attendance), 2137 (attendance < 20mins), 2147 (attendance > 20 mins), 2199 (attendance > 40 mins), 827, 868, 869, 881, 891	
PN or AHW - includes items 10983 (attendance)	
PN or AHW at RACF - includes items 10984 (attendance)	
NP Telehealth - includes items 82221 (attendance > 20 mins), 82222 (attendance > 40 mins)	
NP Telehealth at RACF - includes items 82223 (attendance < 20mins), 82224 (attendance > 20 mins), 82225 (attendance > 40 mins)	
NP Consult - includes items 82200 (attendance), 82205 (attendance < 20mins), 82210 (attendance > 20 mins), 82215 (attendance > 40 mins) 91192, 91193, 91178, 91189, 91179, 91190, 91180, 91191	
Heart Health Check - includes item 699 or 177	
Covid-19 GP Telehealth items include 91790, 91800, 91801, 91802	
Covid-19 GP Telephone items include 91795, 91809, 91810, 91811	
Covid-19 Other Provider Telehealth items include 91792, 91803, 91804, 91805, 91806, 91807, 91808, 91794	
Covid-19 Other Provider Telephone items include 91797, 91812, 91813, 91814, 91815, 91816, 91817, 91799	
Covid-19 Other Provider Nurse Practitioners telehealth items include 91192, 91178, 91179, 91180, 91193, 91189, 91190, 91191	
Covid-19 Testing include 69485, 69494, 69495, 69496	
Covid-19 Medication Assessment 93716, 93717	

Some item numbers have a follow up item number attached. For example, patients who have had a 2710 (Mental Health Plan) should have a follow up 2712 (Review of Mental Health Plan). You are able to identify patients that have not had the follow up item number by using selecting item 2710 from the recorded tab and item 2712 from the not recorded tab and using the 'Report' button to do a cross-tabulation.
