

Antenatal Visits

In the Antenatal Visits tab four different reports are shown in their respective tabs.

Antenatal First Visit Date

This report shows a pie chart for patients who gave birth in the last 12 months by the time in weeks at which the date of first antenatal visit is recorded.

Size in weeks at First Visit

This report shows a pie chart for patients who gave birth in the last 12 months by the gestational age recorded in the antenatal visit record. If a clinical value is entered this will be used in preference to a calculated value.

Antenatal Number of Visits

This report shows a pie chart for patients who gave birth in the last 12 months by the number of antenatal visits recorded for the pregnancy.

Antenatal Count

This report shows a pie chart which displays the antenatal visit count per patient for the last 12 months (this includes mothers whether or not they have given birth).

A reidentification worksheet provides details such as gestation, last menstrual period (LMP), first visit date and first visit calculated in weeks.
