

Conditions Communicare Mapping

The data collection process collects conditions that are found on the clinical record screen. Chronic conditions are flagged as true for a patient if the condition is recorded in the patient's clinical record. For details on the list of active and inactive conditions please refer to the [relevant document here](#). Conditions are mapped using ICPC Code and ICPC Term Code to determine if a condition is to be included.

CAUTION: This list of ICPC codes needs to be reviewed after each release of ICPC2-Plus to include new codes.
