

General Communicare Mapping

CAT Field	Communicare Equivalent
Gender	Patient Biographics – Sex
Ethnicity	Patient Biographics – Aboriginality
DVA	Patient Biographics – DVA
Age	Patient Biographics – Date of Birth
Email	Patient Biographics – Email
Last Visit	Service Recording, Client contacts only
Postcode	Patient Biographics – Locality Postcode
Status	Patient Biographics – Patient Status at time of extract

CAT Allergy Value	Communicare Equivalent
Allergy Recorded	At least one record in Adverse Reaction Summary
No Known Allergies	Nil Known box checked on Adverse Reaction Summary
Nothing Recorded	No records and Nil Known box is unchecked on Adverse Reaction Summary

Smoking Status

The most recent Communicare reference qualifier with a system code of 'SMO' or 'SMP' (normally 'Smoking Status' and 'Smoking during Pregnancy') is used for the 'Smoking Status' field.

Either Centrally distributed qualifiers or locally define qualifiers may be used.

Locally defined qualifiers must be reference types and must be identified with the same system codes as above ('SMO' or 'SMP'). Further, the actual reference (dropdown) list items must have system codes and export codes as indicated below or as specified in the MedicalMicrodata.

CAT Smoking Status	System Code of Qualifier Result
Daily smoker	1
Weekly smoker	2
Irregular smoker	3
Ex-smoker	4
Never smoked	5

CAT Readiness to quit	Export Code of Qualifier Result
Ready to quit	1
Intends to quit	2
Not ready to quit	3
Recent quitter	4
Nothing recorded	9

Mappings used for Central qualifier values to CAT (METeOR) values is shown in the table below.

Central Qualifier Name	Qualifier Value	CAT Smoking Status	CAT Readiness to Quit
Smoking status	Ex-smoker	Ex-smoker	
Smoking status	Non-smoker (never smoked)	Never smoked	
Smoking status	Current smoker - intends to quit later	Daily smoker	Intends to quit
Smoking status	Current smoker - no intention to quit	Daily smoker	Not ready to quit
Smoking status	Current smoker - wants to quit now	Daily smoker	Ready to quit
Smoking status	Ex-smoker quit less than 12 months ago	Ex-smoker	Recent quitter
Smoking status	Ex-smoker quit 12 months or more ago	Ex-smoker	
Smoking status	Current smoker	Daily smoker	Nothing recorded
Smoking during pregnancy	a. Daily smoking	Daily smoker	Nothing recorded
Smoking during pregnancy	b. Weekly smoking	Weekly smoker	Nothing recorded
Smoking during pregnancy	c. Irregular smoking	Irregular smoker	Nothing recorded
Smoking during pregnancy	d. Ex-smoker (quit during preg)	Ex-smoker	Recent quitter
Smoking during pregnancy	e. Ex-smoker (quit before preg)	Ex-smoker	
Smoking during pregnancy	f. Non-smoker	Never smoked	

Alcohol AUDIT-C

The most recent Communicare numeric qualifier with an export code of 'AUDITC' is reported for the 'Alcohol AUDIT-C' score.

Alcohol Status

The most recent Communicare qualifier with a system code of 'ALC' or 'ALP' (normally 'Alcohol Consumption Level' and 'Alcohol Consumption during Pregnancy') is used for the 'Alcohol Status' field.

CAT Alcohol Status	System Code of Qualifier Result
Drinker	D
Non-drinker	N
Not recorded	-

Alcohol Consumption Frequency

The most recent Communicare qualifier with an export code of 'ALC-FRQ' (normally 'Alcohol Audit Interview Q1') is used for the 'Alcohol Consumption Frequency' field.

CAT Value	Communicare Export Code of Qualifier Result
Never in my life	N
1 day per month	M1
2 to 3 days per month	M3
3 to 4 days per week	W4
Every day	D
