

Identify patients with diabetes without HbA1c results recorded in the last 12 months

Unknown macro: 'export-link'

Recipe Name:	Identify patients with diabetes without HbA1c results recorded in the last 12 months
Rationale:	Best Practice management of diabetes in general practice requires that HbA1c is recorded at least every 12 months. This is supported by Practice Incentive Payments (PIPs) for Diabetes Cycle of Care, National Performance Indicators (NPIs) in general practice and the APCC Program initiatives.
Target:	100% practice diabetic population has a HbA1c recorded < 12 months
CAT Starting Point:	<div>1. CAT Open - CAT4 view (all reports) loaded</div> <div>2. Population Extract Loaded and Extract Pane "Hidden"</div> <div> a. Filter Pane open and under the 'General' tab 'Active Patients' (3x <2 years) selected (this step can be omitted if you want to search for all patients).</div>

Check out the video for this recipe here:

RECIPE Steps Filters:

- In "Conditions" Tab, under the "Diabetes" category, select "Yes".
This will select all patients with any type of diabetes, provided a coded diagnosis has been entered in the patient record.

General	Ethnicity	Conditions	Medications	Date Range (Results)	Date Range (Visits)	Patient Name	Patient Status	Providers	Risk Factors	MBS Attendance	Saved Filters
<div>Chronic Mental Health Cancer Other</div> <div> <div>Diabetes</div> <div> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No </div> </div> <div> <div>Respiratory</div> <div> <input type="checkbox"/> Yes <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Asthma <input type="checkbox"/> No </div> <div> <input type="checkbox"/> COPD <input type="checkbox"/> No </div> </div> <div> <div>Cardiovascular</div> <div> <input type="checkbox"/> Yes <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Hypertension <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Cardiovascular Disease (CVD): <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Heart Failure <input type="checkbox"/> No </div> <div> <input type="checkbox"/> CHD <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Stroke <input type="checkbox"/> No </div> <div> <input type="checkbox"/> MI <input type="checkbox"/> No </div> <div> <input type="checkbox"/> PAD <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Carotid Stenosis <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Renal Artery <input type="checkbox"/> No </div> </div> <div> <div>Musculoskeletal</div> <div> <input type="checkbox"/> Yes <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Inflammatory <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Musculoskeletal <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Bone Disease <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Osteoporosis <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Osteoarthritis <input type="checkbox"/> No </div> </div> <div> <div>Renal Impairment</div> <div> <input type="checkbox"/> Yes <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Chronic Renal <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Acute Renal Failure <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Dialysis <input type="checkbox"/> No </div> <div> <input type="checkbox"/> Kidney Transplant <input type="checkbox"/> No </div> </div> <div> <input type="checkbox"/> Gestational <input type="checkbox"/> No </div> <div>Clear Conditions</div>											

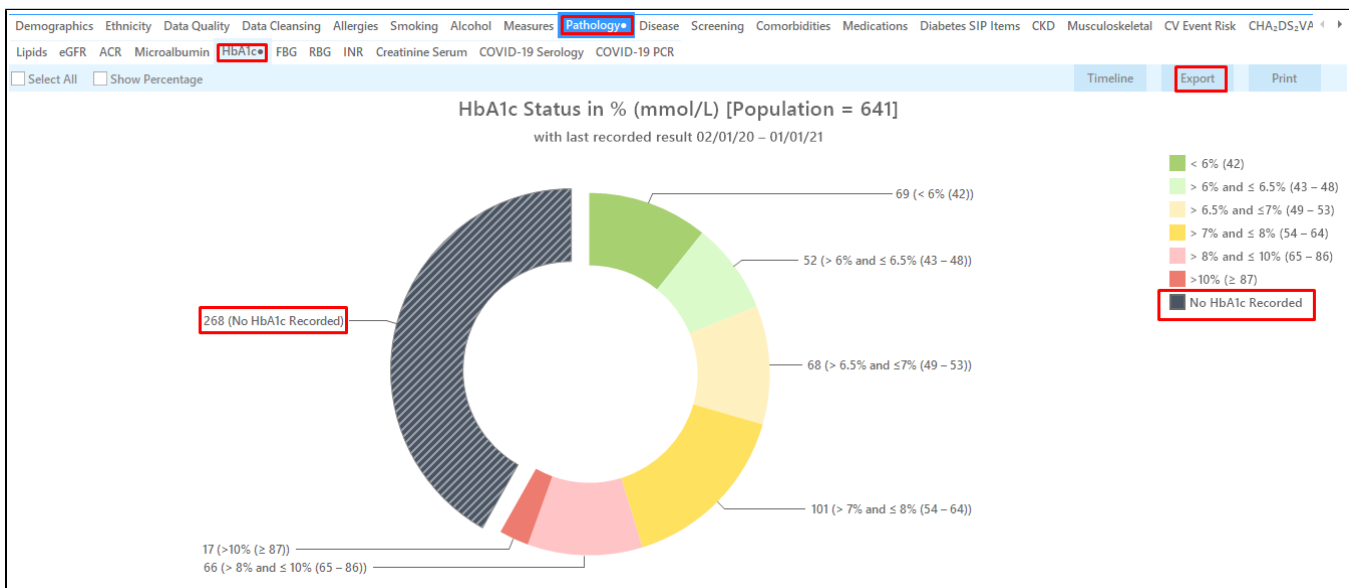

- In the "Date Range - Results" tab, select the ≤ 12 mths to find only results that have been entered in the last 12 months

General	Ethnicity	Conditions	Medications	Date Range (Results)	Date Range (Visits)	Patient Name	Patient Status	Providers	Risk Factors	MBS Attendance	Saved Filters
<div>Date Range for Last Recorded Result or Event</div> <div>The date range selected will filter out results or events that are not within the selected period and treat them as not recorded. This filter is not applicable to graphs that display time periods.</div> <div> <input type="radio"/> All <input type="radio"/> ≤ 6 mths <input checked="" type="radio"/> ≤ 12 mths <input type="radio"/> ≤ 15 mths <input type="radio"/> ≤ 24 mths </div> <div> <input type="radio"/> Date Range (from - to) </div> <div> <input type="text" value="01/01/2021"/> <input type="text" value="01/01/2021"/> </div> <div> Use for: Measurements Pathology MBS Items Maternal Health (birth date/weight) Visit Types Digital Health (SHS/ES uploads) Smoking/Alcohol Influenza Cervical Screenings FOBT </div> <div>Clear Results</div>											

- Click "Recalculate"
- Click 'Hide Filters'

Recipe Steps Reports

- Select the "Pathology" tab
- Select the "HbA1c" tab
- Select the "No HbA1c recorded" part of the graph

- Then click "Export" on top right of the report to display a list of all patients with diabetes without a recorded HbA1c in the last 12 months

Go Share Plus SMS Recall Voicemail Recall Topbar Prompt

Create a prompt to display in Topbar

Remember you need to be in the CAT4 Daily View to be able to create prompts. Other pre-requisites are:

- Topbar is installed
- CAT4 is linked to Topbar via Edit/Preferences/Topbar - check here for details: [Linking CAT to Topbar](#)

To start click on the 'Daily View' icon on the top of your CAT4 screen:

Once you have applied the filter(s) and displayed the patients of interest as described above, you can create a prompt that will be shown to all clinicians using Topbar if a patient meeting the prompt criteria is opened in their clinical system. The full guide is available at [CAT PLUS PROMPTS](#) and a short guide on how to create prompts in CAT4 can be found at [Creating a Prompt in CAT4](#)

To start you have to use the drop-down menu at the bottom of the patient details report and select "Prompt at Consult - Topbar" then click on "Go" to give the new prompt a name.

The name you enter is the prompt text displayed in Topbar, so choose a simple but clear name that tells the clinician seeing the prompt what should be done.

To Export Patient List to Microsoft Excel:

1. Click on the "Export Icon" at the top of the Patient Reidentification window.
2. Click on "Excel"
3. Choose a file name and a location to save to (eg. Create a folder C:/ClinicalAudit/CAT Patient FollowUp)
4. Click "Save"

The steps above will produce a list of patients with contact details in MS Excel which can then be used to:

1. Go back through the individual patient records in the GP Clinical Desktop System (CDS) and update known records
2. Phone patients to update their record
3. Produce a mail merge to recall patients for follow up
