

DEXA screening

This report provides information on Bone Mineral Density screening. It shows all patients and their DEXA screening status. Patients with as scan in the last 2 years (from the extract date) are shown in green, patients with a scan from 2-5 years ago in yellow and not recorded is shown in black.

There is no filter built into this report, so in most cases it will require a filter to find relevant patients. Please check our guide on filtering here for details: [DATA FILTERING](#)
