

COVID-19 General Population - General Report

The COVID-19 Vaccination report shows the vaccination status of the general population at your practice.

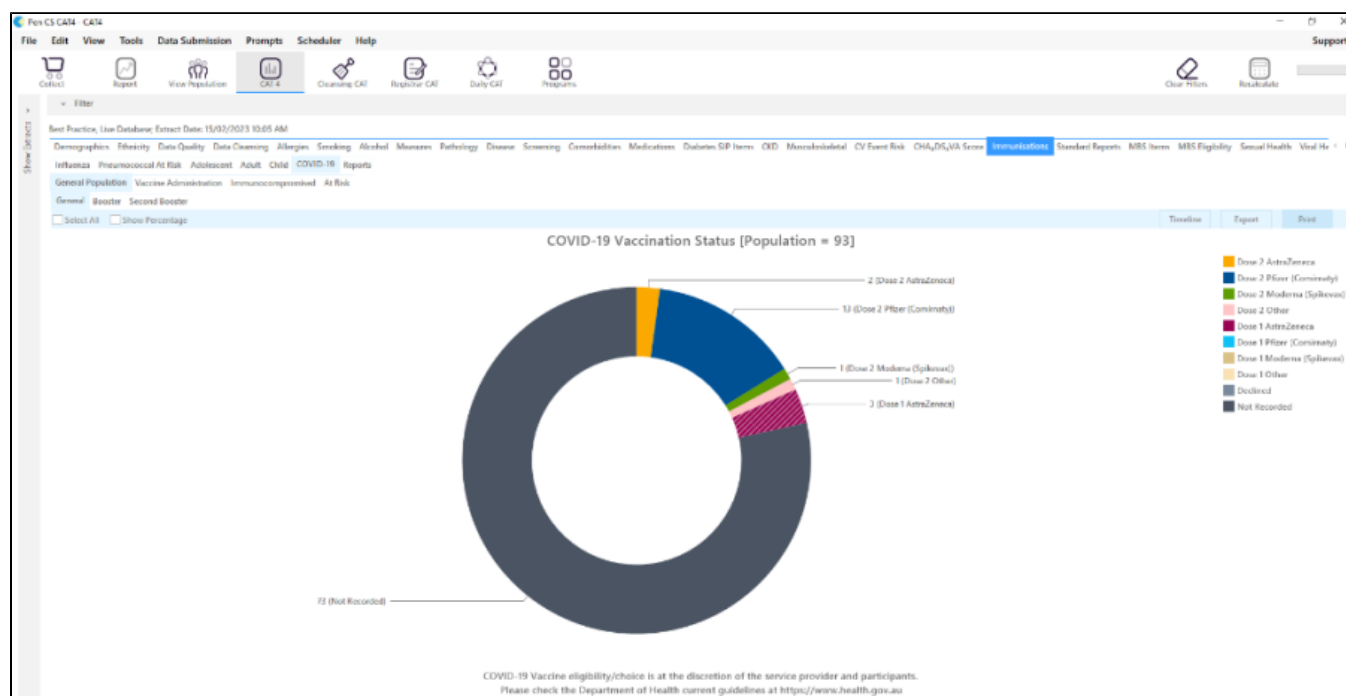

In the 'General' tab under 'General Population' tab all patients are shown in a doughnut chart with the following disaggregation:

- Dose 1 Categories
 - Dose 1 AstraZeneca
 - Dose 1 Pfizer (Comirnaty)
 - Dose 1 Moderna (Spikevax)
 - Dose 1 Other
- Dose 2 Categories
 - Dose 2 AstraZeneca
 - Dose 2 Pfizer (Comirnaty)
 - Dose 2 Moderna (Spikevax)
 - Dose 2 Other
- Declined
- Not Recorded

Please note that we rely on the vaccine sequence entered in your patient records to determine how many doses a patient has received. To ensure accurate reporting make sure your records contain the correct vaccine sequence number, regardless if you record a vaccine given elsewhere or at your clinic.

Below are the inclusion criteria for each category,

- Dose 1 Categories include patient population who have had received at least one vaccine dose
- Dose 2 Categories include patient population who have received at least two doses
- The 'Declined' category includes patients who declined the vaccination. This feature is currently only available for Medical Director users.

Footnote: COVID-19 Vaccine eligibility/choice is at the discretion of the service provider and participants. Please check the Department of Health current guidelines at <https://www.health.gov.au>

The Patient Reidentification report shows details on the dose:

Reidentify Report [Patient Count = 310]

Selected: General (Dose 1 AstraZeneca)
