Influenza

The Immunisations > Influenza graph provides a pie chart by last immunisation date.

*Note 1:* The Influenza immunisation is applicable to all age groups

Note 2: The CAT filters should be used to target the patient population of interest.

The total population will be displayed by default and the CAT filters should be used to target the adult population or other population of interest.

The categories provided are:

- Current calendar year
- Previous calendar year
- Prior to previous calendar year
- Nothing recorded

> ⊘ Please note that the 'Current Year' is the calendar year from January to December. This enables the report to show who is up to date (or not) for the currently used vaccine.

Further Influenza Vaccination Reports:

- Cohort by MBS Fee
- Influenza Timeline Vaccine Cover
- Influenza Vaccination by Patient Group
