

Clinical Tab Cleansing App

This tab displays any missing and completed items from the patients record related to their clinical information in their patient record in the GP application. Items that require actions are displayed on top and completed items at the bottom of the screen. Both can be hidden or displayed by clicking the hide /display link.

Diagnosis Coded

9 coded diagnoses

Items that are completed or not relevant for the patient are shown under the 'Completed' header:

Completed	
Item	Value
Allergies	NKA
Alcohol	Non Drinker
Height	180
Weight	75
Smoking	Smoker
Family History	Complete
Diagnosis Coded	9 coded diagnoses

The items checked for are:

Item	Definition
Alcohol	Alcohol status entered in relevant field in clinical system - prompted for patients older than 10 years only
Allergy Reaction	Information entered into the 'Reaction' field
Family History	Information entered in Family History field(s)

Immunisations	Any immunisation present in the patient's record, including "Recorded Elsewhere"
Physical Activity	Information entered in Physical Activity screen
Allergies	Allergy status entered in relevant field in clinical system
Height	Height entered in relevant field in clinical system
Weight	Weight entered in relevant field in clinical system
Smoking	Smoking status entered in relevant field in clinical system - prompted for patients older than 10 years only
Diagnosis Coded	Shows as incomplete if all conditions are free text.
Waist	will show as 'Missing' if not present or with the measurement if present - prompted for patients older than 18 years only

Topbar allows the user to jump straight to the relevant field in the GP desktop application by clicking on the _____ button on the screen. In our example a click on the link next to the Allergy Reaction will open the patient details screen on the 'Allergies/Adverse reactions' tab in MD3 and allow for immediate entry of the missing data:

Patient Details

Pt. Details Allergies/Adverse Reactions/Warnings Family/Social Hx Notes Smoking Alcohol Personal Details

Allergies / Adverse Reactions

Item	Reaction	Severity	Type
PENICILLINS			Adverse Reaction

☐ No Known Allergies / Adverse Reactions Add Edit Delete

Warnings

☐ Elite sportsperson

☐ Update address for all family members ☒ Auto-capitalise names Save Cancel

Clinical prompts can be deferred in the same way as the demographic prompts, please check here for details [Demographic Tab Cleansing App](#)
