

CAT4 Release Notes V4.23 February 2020

This update contains functionality for two exciting projects which are currently being rolled out in parts of the country. As these projects are currently in limited release, not all users will be able to see/access the new functionality.

- LUMOS – participating NSW general practices only. For full details please check: <https://www.health.nsw.gov.au/lumos/Pages/default.aspx>
- GoShare Plus - Healthily and Pen CS have partnered to create GoShare Plus – a 'next generation' SMS reminder tool that makes it easy for Practice staff to send credible and engaging health information to lists of patients. GoShare Plus launches 3rd March Australia-wide. To active your account please contact Healthily on ph: 03 9534 7222 or visit <https://healthily.com.au/goshare/>
- Minor bug fixes and performance improvements.
