MBS Diabetes Care Plan	Not Applicable	

The report is divided into 3 sections

- Demographics
- Clinical Data Items
- Medicare Items
- Diabetes Care Plan Items (this section will only be displayed if the patient has a coded diagnosis of Diabetes)

The patient report is designed to be able to be de-identified by hiding the patient name and data values. The default settings are:

- Patient name – this appears above the report and is not printed on the report
- Data values – these are displayed as recorded/completed = yes/no ie. the data value details are not displayed

Changing the report default display:
The '**Show Name in Report**' button will toggle the name on in the report if you wish to have this information printed.
The '**Show Details in Report**' button will toggle the data values on in the report where they are available if you wish to have this information printed.
