

Client Organisations

On the 'Client Organisations' tab your existing client organisations are displayed and you can create new organisations. For PHNs or other organisations this screen will show the practices licenced to use CAT Plus.

You need to be administrator to be able to create new client organisations.

UsersClient OrganisationsMembership and LicensingCreditLogin/Usage Reports

This is the list of all client Organisations associated with this Organisation. New client Organisations can be created via the Add new client Organisation button visible to Organisation Administrators and PenCS Support. Client Organisations can only be moved under another Organisation by PenCS support.

Licensing Portal Practice2		N/A	Yes

Figure 9: Client Organisation Tab

Clicking on the 'Add new client Organisation' link will open a new window to enter the details of the new organisation. All fields with the red * are mandatory. The clinical and billing software has to be entered but will be verified on the first logon of users from the organisation against the settings in CAT4. The label 'not verified' will change to 'Confirmed' once this has happened.
