## Using Recall CAT in Recipes

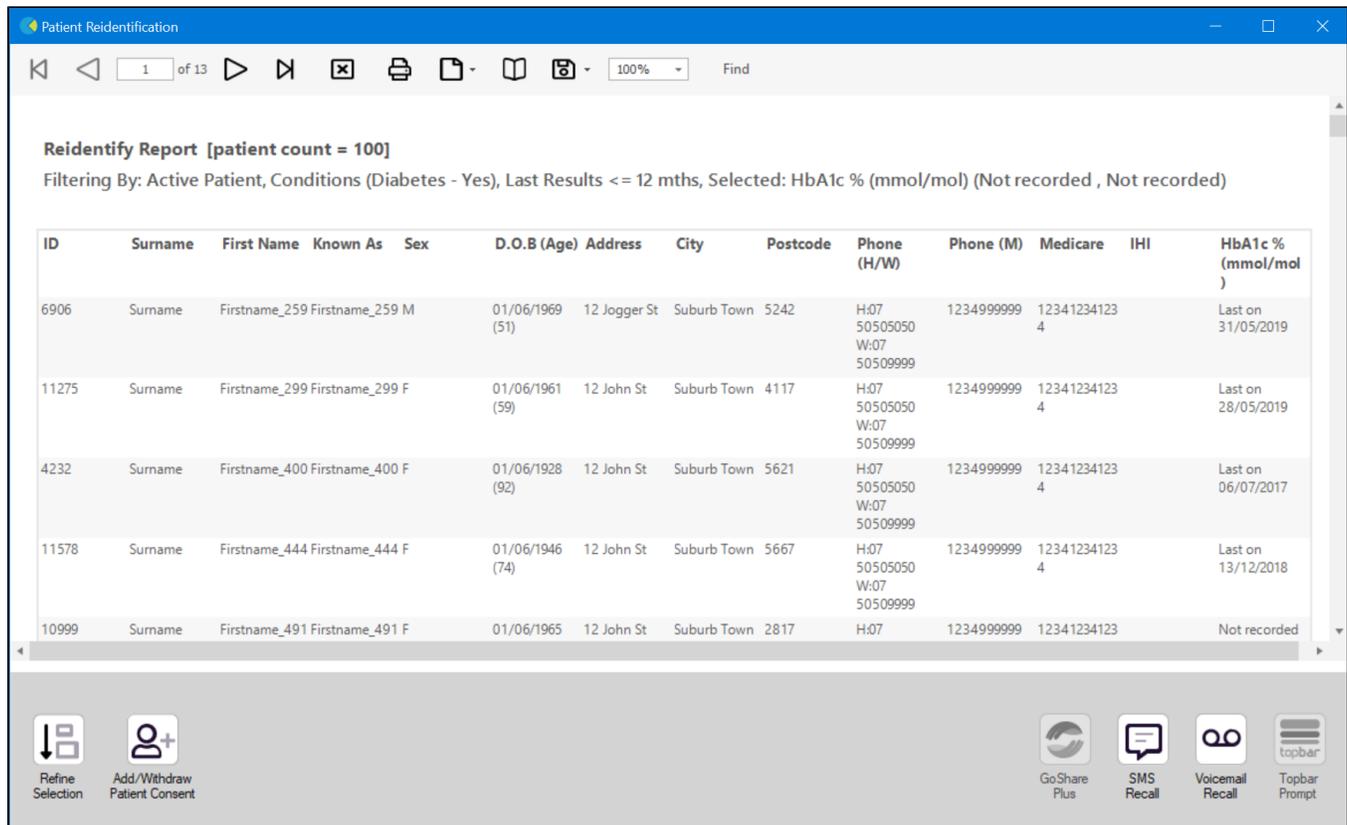

### Optional: Use Recall CAT SMS and voice messages for patient recall

Full details are here: [Recall CAT](#)

After you have applied one or more filters and/or cross tabulations and have selected the group of patients of interest, you will see the choices for SMS Recall and other options at the bottom of the patient re-identification report. This can be applied to all of our [CAT Recipes](#) or any custom search you want to perform.

CAT Starting Point:

The Patient Reidentification window displays your list of filtered patients

The screenshot shows the 'Patient Reidentification' window with a toolbar at the top containing navigation and search icons. Below the toolbar, the window title is 'Patient Reidentification'. The main content area displays a 'Reidentify Report [patient count = 100]' with filtering criteria: 'Filtering By: Active Patient, Conditions (Diabetes - Yes), Last Results <= 12 mths, Selected: HbA1c % (mmol/mol) (Not recorded , Not recorded)'. A table lists patient details including ID, Surname, First Name, Known As, Sex, D.O.B (Age), Address, City, Postcode, Phone (H/W), Phone (M), Medicare, IHI, and HbA1c % (mmol/mol). The table has 10 rows of patient data. At the bottom of the window, there is a toolbar with icons for 'Refine Selection', 'Add/Withdraw Patient Consent', 'GoShare Plus', 'SMS Recall', 'Voicemail Recall', and 'Topbar Prompt'.

### Customising Steps

You can refine the selection manually by clicking the 'Refine Selection' button.

This image shows a close-up of the bottom toolbar from the screenshot above. It highlights the 'Refine Selection' button (represented by a downward arrow and a grid icon) and the 'Add/Withdraw Patient Consent' button (represented by a person icon with a plus sign). Other buttons like 'GoShare Plus', 'SMS Recall', 'Voicemail Recall', and 'Topbar Prompt' are also visible but less prominent.

If you click on "SMS Recall", the "SMS Recall" window will be displayed with the name of your clinic. Enter a message that relates to the purpose of the notification. There are a number of options under the inclusion criteria:

- Patients who have opted out of receiving SMS from your clinic are removed by default
- Linking your online booking system to the SMS recall
- Include the opt-out message in the SMS for patient to "STOP" receiving SMS notifications sent through CAT4

Clicking on "Send" will send the message to all patients with a valid mobile phone number in their record. A confirmation message will prompt you with the number of messages to be sent and the required credits. Click yes to send the SMS recall.
