

Find patients eligible for cervical screening

Unknown macro: 'export-link'

Recipe Name:	Female patients who have not had a cervical screening test
Rationale:	Australia has established a new cervical screening process based on recommendations by Australia's independent Medical Services Advisory Committee (MSAC). This new test regime has commenced on the 1/12/2017. The new Cervical Screening Test has replaced the existing Pap test. MSAC recommended that the new screening test will be conducted every five years for people aged 25 to 74 years. MSAC also advised that • an HPV test with partial genotyping should be undertaken every five years • cervical screening should commence at 25 years of age • people should have an exit test between 70 and 74 years of age • people with symptoms (including pain or bleeding) can have a cervical test at any age For full information on the new test please check here: http://www.health.gov.au/internet/screening/publishing.nsf/Content/healthcare-providers
Target:	a) Meet the criteria for under screened or never screened <i><u>Criteria for under screened:</u> Women aged 30 to 74 years who are two or more years overdue for screening (i.e. last Pap smear was taken four or more years ago or last Cervical Screening Test was taken seven or more years ago).</i> <i><u>Criteria for never screened:</u> Women aged 30 to 74 years who have no Pap smear or Cervical Screening Test result.</i> AND b) Have visited the practice in the past twelve months
CAT Starting Point:	1. CAT Open - Daily View loaded 2. Population Extract Loaded and Extract Pane "Hidden" a. Optional: filter Pane open and under the 'General' tab 'Active Patients' (3x <2 years) selected (this step can be omitted if you want to search for all patients).

RECIPE Steps Filters:

You don't have to filter for gender, as the report will do that for you

- On the "General" tab enter the start age of 30 and end age of 74:

General | Ethnicity | Conditions | Medications | Date Range (Results) | Date Range (Visits) | Patient Name | Patient Status | Providers | Risk Factors | MBS Attendance | Saved Filters

Gender: ☐ Male ☐ Female ☐ Other ☐ Not Stated

DVA: ☐ DVA ☐ non DVA

Health Cover: ☐ Medicare No. ☐ No

Age: Start Age: 30, End Age: 74

Date Range (Visits): ☒ Last Visit ☐ First Visit ☐ Any ☐ None ☐ < 6 mths ☐ < 15 mths ☐ < 24 mths ☐ < 30 mths ☐ Date Range

Activity: ☐ Active (3x in 2yrs) ☐ Not Active

Postcode: ☒ Include ☐ Exclude

City/Suburb: ☒ Include ☐ Exclude

Visits in last 6 mths: >= 0

Has Not Visited in last: 0 mths

Clear General

- In the "Date Range (Visits)" tab select the "<=12 mths" option

General | Ethnicity | Conditions | Medications | Date Range (Results) | Date Range (Visits) | Patient Name | Patient Status | Providers | Risk Factors | MBS Attendance | Saved Filters

Date Range for Visit: The date range selected will filter out patients who have not visited within the selected period.

☐ All ☒ <= 6 mths ☐ <= 12 mths ☐ <= 15 mths ☐ <= 24 mths

Date Range (from - to): 01/01/2021 to 01/01/2021

Use for: Registrar CAT SMS Uploads by Provider

Clear Visits

- On the "Providers" tab select the appropriate provider to see all patients mainly seen by him/her

As we want to identify patients seen by a particular provider, we need to filter by assigned provider. CAT4 uses different ways to assign a provider depending on your clinical system, for more information please see here:

Go Share Plus SMS Recall Voicemail Recall Topbar Prompt

To see the results date scroll to the last column - the dates of each result will be listed. CAT4 doesn't provide a report matching the 4 years for Pap smears and 7 years for HPV required for this report, so you will have find the HPV results manually by sorting the second last column. HPV result will be listed first when sorted along with the date of the test.

Create a prompt to display in Topbar

Remember you need to be in the CAT4 Daily View to be able to create prompts. Other pre-requisites are:

- Topbar is installed
- CAT4 is linked to Topbar via Edit/Preferences/Topbar - check here for details: [Linking CAT to Topbar](#)

To start click on the 'Daily View' icon on the top of your CAT4 screen:

Once you have applied the filter(s) and displayed the patients of interest as described above, you can create a prompt that will be shown to all clinicians using Topbar if a patient meeting the prompt criteria is opened in their clinical system. The full guide is available at [CAT PLUS PROMPTS](#) and a short guide on how to create prompts in CAT4 can be found at [Creating a Prompt in CAT4](#)

To start you have to use the drop-down menu at the bottom of the patient details report and select "Prompt at Consult - Topbar" then click on "Go" to give the new prompt a name.

The name you enter is the prompt text displayed in Topbar, so choose a simple but clear name that tells the clinician seeing the prompt what should be done.

To Export Patient List to Microsoft Excel:

1. Click on the "Export Icon" at the top of the Patient Reidentification window.
2. Click on "Excel"
3. Choose a file name and a location to save to (eg. Create a folder C:/ClinicalAudit/CAT Patient FollowUp)
4. Click "Save"

The steps above will produce a list of patients with contact details in MS Excel which can then be used to:

1. Go back through the individual patient records in the GP Clinical Desktop System (CDS) and update known records
2. Phone patients to update their record
3. Produce a mail merge to recall patients for follow up
