<input type="checkbox"/> Stimulants <input type="checkbox"/> No			

- Click 'Hide Filters'

## Recipe Steps Reports

- Select 'Smoking' tab
- Click on "Daily Smokers" and then on the "Irregular Smokers" part of the graph

This will filter for all active (if selected on the general filter tab) patients that are currently on Glucocorticoids and smoke. There are two ways to target the relevant age groups (for women  $\geq 45$  yrs and men  $\geq 50$  yrs). You can click on the age groups of interest on the 'Demographic' tab in the report pane:

- Then click 'Report' on top of your screen:

Or you can use the 'General' tab in the filters to apply a filter for female or male clients at the right age. Please note you will have to do this once for females and once for males.

**General** | Ethnicity | Conditions | Medications | Date Range (Results) | Date Range (Visits) | Patient Name | Patient Status | Providers | Risk Factors | MBS Attendance | Saved Filters

**Gender**

☒ Male ☐ Female ☐ Other ☐ Not Stated

**DVA**

☐ DVA ☐ non DVA

**Health Cover**

☐ Medicare No. ☐ No

**Age**

Start Age: 50  
End Age:   
☒ Yrs ☐ Mths  
☐ No Age

**Providers**

☒ Last ☐ First Visit

**Risk Factors**

☒ Any ☐ None

**MBS Attendance**

☐ < 6 mths ☐ < 15 mths ☐ < 24 ☐ < 30 mths ☐ Date Range

**Activity**

☐ Active (3x in 2yrs) ☐ Not Active

**Visits in last 6 mths**

>=  mths

**Postcode** ☒ Include ☐ Exclude

**City/Suburb** ☒ Include ☐ Exclude

(lists: comma separated, \* wildcard)

Clear General

Once you have applied the filter above you can click on 'View Pop.' to see all clients you have filtered for.

## Create a prompt to display in Topbar

Remember you need to be in the CAT4 Daily View to be able to create prompts. Other pre-requisites are:

- Topbar is installed
- CAT4 is linked to Topbar via Edit/Preferences/Topbar - check here for details: [Linking CAT to Topbar](#)

To start click on the 'Daily View' icon on the top of your CAT4 screen:

**To Export Patient List to Microsoft Excel:**

1. Click on the "Export Icon" at the top of the Patient Reidentification window.
2. Click on "Excel"
3. Choose a file name and a location to save to (eg. Create a folder C:/ClinicalAudit/CAT Patient FollowUp)
4. Click "Save"

The steps above will produce a list of patients with contact details in MS Excel which can then be used to:

1. Go back through the individual patient records in the GP Clinical Desktop System (CDS) and update known records
2. Phone patients to update their record
3. Produce a mail merge to recall patients for follow up
