

# Identify patients not on Lipid lowering medication with HDL<1 and Cholesterol >6.5mmol/L

Unknown macro: 'export-link'

|                            |   |
|----------------------------|---|
| <b>Recipe Name:</b>        | Identify patients not on Lipid lowering medication with HDL<1 and Cholesterol >6.5mmol/L  |
| <b>Rationale:</b>          | Biomedical risk factor modification – treat to target.  |
| <b>Target:</b>             | All patients currently on your system that are not on lipid lowering medication and have had a HDL<1 and cholesterol>6.5 result in the last 12 months. Further information can be found here: <a href="http://www.pbs.gov.au/info/healthpro/explanatory-notes/gs-lipid-lowering-drugs">http://www.pbs.gov.au/info/healthpro/explanatory-notes/gs-lipid-lowering-drugs</a> |
| <b>CAT Starting Point:</b> | <ol style="list-style-type: none"> <li>CAT Open</li> <li>Population Extract Loaded and Extract Pane "Hidden"</li> <li><b>OPTIONAL ONLY</b>{*}: Filter Pane Open and, under the General Tab, "Active Patients (3x &lt; 2 years)" selected</li> </ol> <p><i>*The decision to select either "Active" or "All" patients is left to the practice to make</i></p>               |

## In the Filters Pane:

In the "Medications" tab under "Medications – Heart" select

- Lipid M/Fying - No

General Ethnicity Conditions **Medications** Date Range (Results) Date Range (Visits) Patient Name Patient Status Providers Risk Factors MBS Attendance Saved Filters

**Medications - Heart** Medications - Respiratory Medication - Antidiabetics Medications - Other

|  |  |  |  |  |   |
|--|--|--|--|--|---|
| ACE or ARB   | Antithrombotics  | Beta Blockers  | Calcium  | Diuretics  | Lipid M/f/ying  |
| <input type="checkbox"/> Yes <input type="checkbox"/> No | <input type="checkbox"/> Yes <input type="checkbox"/> No         | <input type="checkbox"/> Yes <input type="checkbox"/> No               | <input type="checkbox"/> Yes <input type="checkbox"/> No | <input type="checkbox"/> Yes <input type="checkbox"/> No | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| <input type="checkbox"/> ACE <input type="checkbox"/> No | <input type="checkbox"/> Aspirin <input type="checkbox"/> No     | <input type="checkbox"/> Antihypertensives <input type="checkbox"/> No |  |  |   |
| <input type="checkbox"/> ARB <input type="checkbox"/> No | <input type="checkbox"/> Clopidogrel <input type="checkbox"/> No | <input type="checkbox"/> Chronic Heart <input type="checkbox"/> No     |  |  |   |
|  | <input type="checkbox"/> Dabigatran <input type="checkbox"/> No  | <input type="checkbox"/> Myocardial <input type="checkbox"/> No        |  |  |   |
|  | <input type="checkbox"/> Warfarin <input type="checkbox"/> No    |  |  |  |   |

Clear Medications

In the "Date Range (Results)" tab select

- $\leq 12$  mths

General Ethnicity Conditions Medications **Date Range (Results)** Date Range (Visits) Patient Name Patient Status Providers Risk Factors MBS Attendance Saved Filters

**Date Range for Last Recorded Result or Event**

The date range selected will filter out results or events that are not within the selected period and treat them as not recorded. This filter is not applicable to graphs that display time periods.

Use for:  
 Measurements  
 Pathology  
 MBS Items  
 Maternal Health (birth date/weight)  
 Visit Types  
 Digital Health (SHS/ES uploads)  
 Smoking/Alcohol  
 Influenza  
 Cervical Screenings  
 FOBT

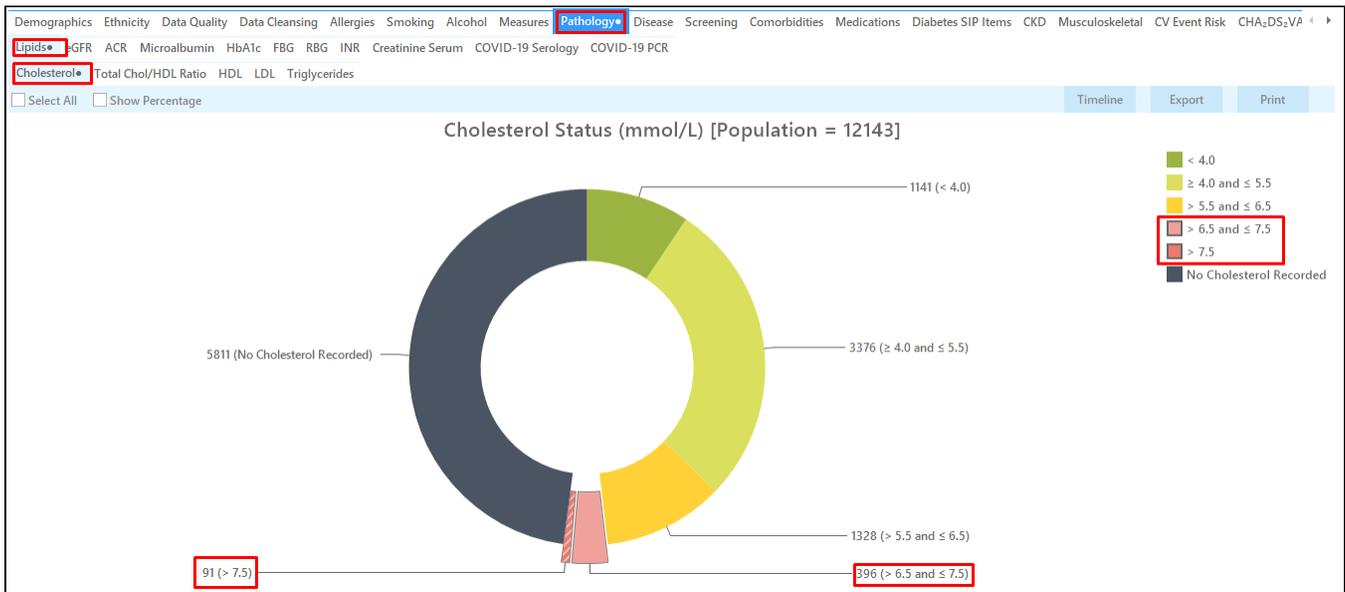

All  
  $\leq 6$  mths  
  $\leq 12$  mths  
  $\leq 15$  mths  
  $\leq 24$  mths

Date Range (from - to)  
 01/ 01/ 2021 - 01/ 01/ 2021

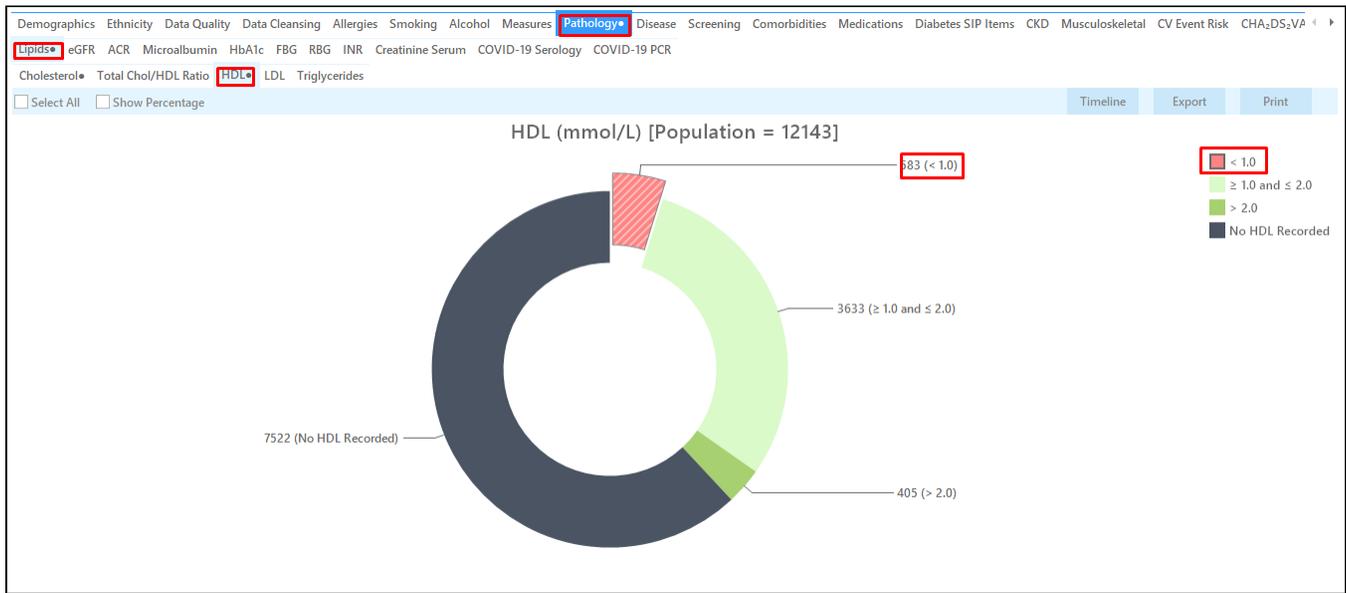

Clear Results

In the Reports Pane:

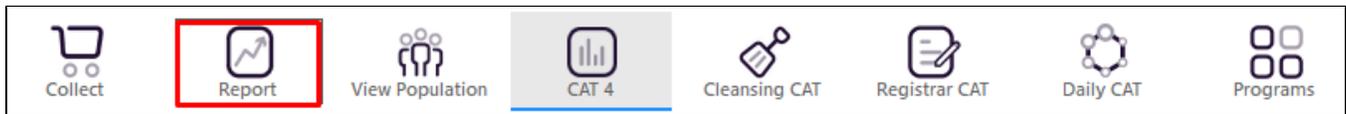

- On the Pathology/Lipids/Cholesterol tab select the " $>6.5$  and  $\leq 7.5$ " and " $>7.5$ " ranges by either clicking on the graph or on the legend

- On the Pathology/Lipids/HDL tab select the " $<1$ " range by either clicking on the graph or on the legend

Click "Report" to display only those patients who had both results in the selected ranges (for more information on cross tabulation click here: [Cross Tabulation Report](#))

This will display a list of the patients with matching results with their details and the last result:

Refine Selection Add/Withdraw Patient Consent GoShare Plus SMS Recall Voicemail Recall Topbar Prompt

The patient re-identification report allows you to further refine the list of patients, to export and also to send a SMS or Voice message directly to the patient (For full details on Recall CAT see here: [Recall CAT - SMS and Voice Messaging for CAT4](#). If you are using Topbar, you can create a prompt for the clinicians. For more details see below.

**To Export Patient List to Microsoft Excel:**

1. Click on the "Export Icon"  at the top of the Patient Reidentification window.
2. Click on "Excel"
3. Choose a file name and a location to save to (eg. Create a folder C:/ClinicalAudit/CAT Patient FollowUp)
4. Click "Save"

The steps above will produce a list of patients with contact details in MS Excel which can then be used to:

1. Go back through the individual patient records in the GP Clinical Desktop System (CDS) and update known records
2. Phone patients to update their record
3. Produce a mail merge to recall patients for follow up

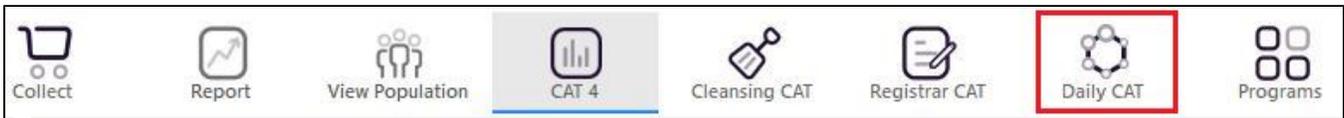

**Create a prompt to display in Topbar**

Remember you need to be in the CAT4 Daily View to be able to create prompts. Other pre-requisites are:

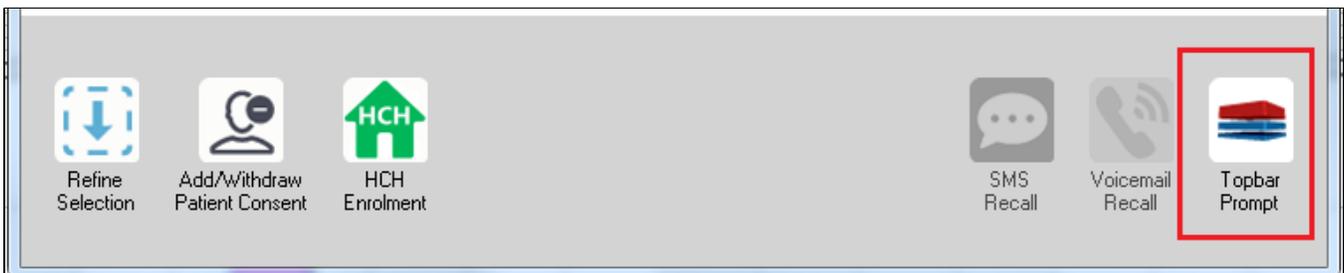

- Topbar is installed
- CAT4 is linked to Topbar via Edit/Preferences/Topbar - check here for details: [Linking CAT to Topbar](#)

To start click on the 'Daily View' icon on the top of your CAT4 screen:

Once you have applied the filter(s) and displayed the patients of interest as described above, you can create a prompt that will be shown to all clinicians using Topbar if a patient meeting the prompt criteria is opened in their clinical system. The full guide is available at [CAT PLUS PROMPTS](#) and a short guide on how to create prompts in CAT4 can be found at [Creating a Prompt in CAT4](#)

To start you have to use the drop-down menu at the bottom of the patient details report and select "Prompt at Consult - Topbar" then click on "Go" to give the new prompt a name.

The name you enter is the prompt text displayed in Topbar, so choose a simple but clear name that tells the clinician seeing the prompt what should be done.

The screenshot shows the 'Patient Reidentification' application window. On the left, a 'Reidentify Report' displays a table of 103 patients filtered by 'Diabetes - Yes' and 'Last Results <= 12 mths'. The table has columns for ID, Surname, First Name, Known As, Sex, D.O.B, and Address. Three rows are visible with placeholder text.

On the right, the 'Topbar Prompt' dialog box is open. It has a title bar with the application logo and the text 'Topbar Prompt'. Below the title bar, there is a 'Name:' label followed by a text input field containing the text 'message to clinician goes here'. Below this is a 'Filters:' section with a list box containing 'category (Diabetes): Yes' and 'Last Results <= 12 mths'. Below that is a 'Charts:' section with a list box containing 'HBA1c Status in % : No HBA1c Recorded'. At the bottom right of the dialog box are 'OK' and 'Cancel' buttons.

At the bottom of the application window, there is a toolbar with six icons and their corresponding labels: 'Refine Selection', 'Add/Withdraw Patient Consent', 'HCH Enrolment', 'SMS Recall', 'Voicemail Recall', and 'Topbar Prompt'.
