

COVID-19

The COVID-19 reports show the vaccination status of the general population, immunocompromised patients and at-risk patients at your practice.

With the latest update to the recommendations for the Astra Zeneca vaccine our report will need to be filtered to exclude anyone younger than 60 years, regardless of their underlying medical conditions. Please use the [general filter](#) to filter for patients aged 60 and older:

Filter

General	Ethnicity	Conditions	Medications	Date Range (Results)	Date Range (Visits)	Patient Name	Patient Status	Providers	Risk Factors	Health Care Homes	MBS Attendance	Custom Filters	Saved Filters
Gender			DVA		Age			<input checked="" type="radio"/> Last <input type="radio"/> First Visit			Activity		Postcode <input type="radio"/> Include <input type="radio"/> Exclude
