

Medications Filtering

Medications are divided into 3 tabs to allow for a greater number of medications to be selected. These are

- Medications – Heart
- Medications - Respiratory
- Medications Antidiabetics
- Medications – Other

Clear Medications

Selecting Medications by ticking the boxes, Yes or No will limit your data to look at only patients that match the medication status selected:

- Medication – Yes, No, no selection = All

You can select to filter by patients that

- Have a current medication (tick the Yes box)
- Do not have a current medication (tick the No box)

If you tick one of the main medication headings (bolded) the sub-heading selections will not be available and all patients matching that broad medication category will be selected.

!

This guide is only an overview as the filters are aligned with CAT4. For full details on all medication filters please see here: [Medications Filtering CAT4](#)

For details on the respiratory medication filter please see here: [Respiratory Medications Filter](#)
