

Inviting an Organisation to join a Channel

Only organisations who are registered as participants in the PAT CAT network will receive invitations to a channel. Only the owner/creator of a channel can send an invite to a channel. Invites will be shown in the invite list. An organisation can send a join request to the owner/creator of that public channel. Once the join request is accepted by the owner the channel will become available.

To invite an organisation to your channel, click on the '+ Invite' button:

PPHN A invites you to join the channel: Test Channel	<div>+ Accept Invite</div> <div>✕ Decline Invite</div>

Invitations can be accepted or declined. When accepted, the details of the channel are displayed and you can choose if you want to see (and share) all of the graphs or only some of them.

Remember that accepting an invite to a channel will give you access to the graphs in the channel AND will share your data across the same graphs!
