If you are not receiving your results electronically, you will have to enter the test results manually using one of the names specified in th guides. Please check the links below for details. Also please note that CAT4 can't pick up mammogram test from your conditions or pas - it has to be a test name!

Mammogram results are not sent electronically in all states, but if test names are entered manually into the results tab CAT4 will pick up that the done. The following test names are recognised:

- Breast Mammogram Screening
- Bilateral Mammography
- Ultrasound Breast Bilateral
- · Wesley Breast Clinic Consultation Report
- Mammogram
- Mammogram-normal
- Breast Mammography
- Mammography Bilateral
- Mammogram Breastscreen NSW
- Screening Mammogram BreastScreen Queensland

To manually add a mammogram result click on the 'Add' button under the 'Investigation report' tab, then enter one of the test names from above the other fields. CAT4 will only extract the test name and date but no outcome/result.
