

Dismissing and Deferring Prompts

From the Cat Plus Prompts app screen prompts can be dismissed or deferred using the respective button. Dismissing a prompt will open up an optional field for a dismissal reason. Clicking on 'Cancel' will return to the previous screen and not dismiss the prompt.

Dismissed or deferred external notifications are recorded and their status will be shown in PAT CAT after the nightly update, for details please refer to the section on [viewing and removing prompts in PAT CAT](#).

Dismissed or deferred practice notifications are recorded and their status will be shown in CAT4 after a new collect, for details please refer to the section on [viewing and editing prompts in CAT4](#).

The screenshot shows the 'CAT Plus Prompts' app interface. At the top, there are tabs for 'Notifications' (with a red badge '2'), 'Dismissed Notifications', and 'Settings' (with a red badge '17'). Below the tabs, there is a section for 'Practice Notifications' with a blue circular icon. The main area displays a list of prompts. The first prompt is 'Patient with CVD and no BP recorded in the last 6 months - please review'. To the right of this prompt are three buttons: 'Dismiss' (with a red dot icon), 'Defer' (with a red dot icon), and 'Info' (with a downward arrow icon). Below this list, there is a section for 'Deferred' prompts, which currently shows 'No deferred prompts.' and buttons for 'Undefer' and 'Info'.

Deferring a prompt will by default defer until three months from today's date, but the date can be changed to a custom date if required. An optional reason for deferring can be entered below.

The screenshot shows a dialog box titled 'Defer this notification?' with a close button (X) in the top right corner. Inside the dialog, there are two main sections. The first section is labeled 'Defer until:' and contains a date input field with the value '03/05/2020' and a calendar icon to its right. The second section is labeled 'Optional Reason:' and contains a text input field. At the bottom right of the dialog, there is a blue button labeled 'Defer'.

Dismissing or Deferring a prompt will remove this prompt for the currently selected patient only and will affect all users at the practice.
